Government Goal: to improve health status of the Population with concern for the vulnerable poor and at risk categories

Private Not for Profit Hospitals Goal: to provide health services to the Population with concern to the poorest and in need

Government and PNPFF Hospitals have a common Goal

Therefore in a situation of limited resources, that are not going to change significantly in the next future:

The need for partnership

- | ADVANTAGES FOR GOVERNMENTS: | ADVANTAGES FOR PNPFF HEALTH PROVIDERS: |
|--|--|
| <ul style="list-style-type: none"> OUTSOURCE THE PNPFF FACILITIES AS PART OF THE HEALTH SYSTEM FINANCING THE PNPFF SECTOR WITH RESERVES OF THE COEF WITH THE RETURN OF 80% OF SERVICES TO THE PEOPLE INCREASE SUSTAINABILITY IN LONG TERM OF THE HEALTH SECTOR AVOID OVERLAP OF SERVICES | <ul style="list-style-type: none"> BE REAL PARTNERS IN SHAPING THE HEALTH SYSTEM BE FAITHFUL TO THE MISSION STATEMENT - KEEPING LOW FEES FOR SERVICES TO ENSURE THE HIGHEST POSSIBLE ACCESSIBILITY ENSURE SUSTAINABILITY IN LONG TERM OF THE INSTITUTIONS AND THEREFORE OF THE HEALTH SYSTEM AS A WHOLE |

The need for partnership

Maximum package recommended by WHO: 18-22 USA/person/year
Per capita expenditure for health by Ethiopian Government: 2.016/ person/year

Main problem for Governments:

- Financing the health care in the poorest countries with limited resources
- Increase cost for services (drugs, salaries, etc.)
- Lack of capacity to repair major health facilities
- Lack of capacity to recruit health workers
- Low quality of services (drugs, etc.)
- Low capacity to pay for health services
- Low capacity to pay for health services

Main problem for Private Not For Profit Hospitals:

- Financing the hospitals leaving very low rates to ensure accessibility
- Low capacity to pay for health services
- Low capacity to pay for health services
- Low capacity to pay for health services

Actual constraints:

- Low capacity to pay for health services
- Low capacity to pay for health services
- Low capacity to pay for health services

The case of St. Luke Catholic Hospital and College of Nursing in Wolisso (GROMIA)

In the agreement

May 2003: Oromia Disaster Prevention and Preparedness Commission (ODPPC) and Oromia Health Bureau (ORHB) signed the agreement

Oromia Health Bureau (ORHB) and Ethiopian Catholic Church (ECC/SADCO) signed the agreement

Doctors with Africa - CUAMM signed the renewal of the Project Agreement

entitled: "St. Luke Catholic Hospital & College of Nursing"

with a Grant that will cover 20% of the running cost for 5 years

with the aim of:

- improving the quality of services
- reaching 100% of services to the population with 20% of the cost of the services
- improving the quality of services
- reaching 100% of services to the population with 20% of the cost of the services

with the aim of:

- improving the quality of services
- reaching 100% of services to the population with 20% of the cost of the services
- improving the quality of services
- reaching 100% of services to the population with 20% of the cost of the services
